

## TEMPLATE FOR ADVERTISING RESEARCH POSTS

based on indications given by par. 4.4.1 of the  
"Report of the Working Group of the Steering Group of Human Resources Management under the  
European Research Area on Open, Transparent and Merit-based Recruitment of Researchers"

**Recruiting Department/Research Unit: Department of Law**

**Title:** InnovaEU: Research and Innovation Dynamics in the European Union in the Era of FP10

### Offer description:

The *InnovaEU* project aims to analyze the role of research and innovation processes in Europe in the context of the Tenth Framework Programme (FP10), focusing on how it fosters the transition towards a knowledge-based, sustainable, and resilient economy: rights and economic development. FP10 represents a milestone in harmonizing research and innovation policies among Member States, with the objective of strengthening the EU's global competitiveness.

The project is structured into 2 main areas:

1. **Policies and strategic priorities:** Analysis of FP10's thematic priorities, such as the green transition, digitalization, and strategic autonomy, and their impact on research dynamics.
2. **Collaboration, research & project management:** Study of collaboration networks among universities, research institutions, and industry at the European level. A particular attention is placed on the role of research & project management.

### Objectives:

- Identify successful models for the dissemination and application of knowledge within the EU, especially with reference to the role of research & project management.
- Propose strategies to overcome barriers to transnational cooperation.
- Explore the potential of an integrated European system for research and innovation, aligned with the concept of the "fifth freedom" proposed in the Letta report.

### Researcher career profile:

- *R2 Recognised Researcher (PhD holders or equivalent who are not yet fully independent)*

For further details <https://euraxess.ec.europa.eu/europe/career-development/training-researchers/research-profiles-descriptors>
