# TEMPLATE FOR ADVERTISING RESEARCH POSTS

based on indications given by par. 4.4.1 of the "Report of the Working Group of the Steering Group of Human Resources Management under the European Research Area on Open, Transparent and Merit-based Recruitment of Researchers"

Recruiting Department/Research Unit: Department of Economics and Law

**Title:** The competitiveness of made in Italy products in foreign countries

# Offer description:

The research is aimed at analyzing the competitiveness of made in Italy products in international markets. The effectiveness of production and selling strategies of made in Italy firms can be influenced by both internal and external factors: on one hand, outsourcing, scarce market research carried on by producers and limited application of digital tools for marketing strategies, tend to slow down the potentialities of international development; on the other hand, counterfeiting, economic problems of international trade and present social and cultural changes, make more complex to effectively promote and enhance Italian products. The research grant is therefore aimed at defining project proposals about the issues as above, in order to participate in European competitive calls, by collaborating with other organizations interested in the enhancement of 'made in' products.

# Researcher career profile:

• R1 First Stage Researcher (up to the completion of PhD)
